SATURDAY ...... MAY 26, 1877. [For the Dispatch.]

Rosethorn. The moon threw witchery of light Around, and all was still Except one very Bright, bold and merry And restless little rill,

Rich wonders stole down from the stars.
As shadows wove their spell,
And passion olden
Now thrilled like golden
Sweet jinglings of a bell;

For there—right near me—stood a form Of radiance and grace— What midnight eyes! What sylphic sighs! What beauty in that face!

From fancy's bursting fount there leapt A stream of mystic love, And all below Was all aglow As things are up above.

Her pure, proud mouth was raised to mineA mouth that perfumed tips;
I stooped and kissedMan, mark; O, list!
Hoofs! stars and fist!
A pill was 'tween her lips!

Editors of the Dispatch: Will you be so kind as to inform us through your columns how the word "cantata" is pronounced? Having heard three different pronunciations, would like to know which is the correct one. AN INTERESTED PARTY.

Answer .- Perry, Walker, and Smart pronounce it cantata. Knowles, Cooley, and Cull, cantata. Worcester and Webster both ways-that is, cantah'ta and cantata-the second syllable in the first being pronounced like "ah" and in the other like "pay."

APPOMATTOX COUNTY, VA., May 22, 1877. To Editor of Petersburg Post: We were very much gratified on yesterday to see announced in the Richmond Dispatch the appointment of our friend Colonel W. W. Forbes as postmaster of Richmond. There is no man outside of our own party that we would sooner see have it. No one ever enjoyed the respect of the people with whom he was reared more than Colonel W. W. Forbes did in the county of Buckingham; and while we all know and feel sorry that he has gone astray-wandered off with the lost sheep of Israel-it is the general saying that he is a good fellow, ever ready to help

I am sorry to see the Dispatch troubled about our section of country, &c., &c. [Oh, fat-witted correspondent.]

Now for DARWIN.-We understand from good authority that there is living in this county a negro man who was offered \$400 a year by Old John Robinson to attend his circus and be exhibited as a gorilla. The resemblance which he bears to this animal is so marked that it would require a connoisseur to make the distinction .- Bedford

It is stated from Washington, as throwing some light on the question whether the consols of 1865, a portion of which loan was recently called in, are held to any extent in Europe, that during February, March, and April coupons due January 1st of that loan were received from foreign holders through the London syndicate representing the interest on nineteen million dollars of bonds.

What is Moderate Drinking? The advocates of total abstinence from in-

even a moderate use of stimulating drinks, on the ground that "moderate drinking is the parent of excessive drinking." The Lancet questions the correctness of this proposition, but in its negative definition of what is meant by "moderate" drinking the votaries of Bacchus will find very little comfort. "The man," says the Lancet, "who begins the day with a 'soda-and-brandy' has very little respect for his constitution, and if he does not alter his habits they will alter his health. Odd glasses of beer and glasses of spirit in a forenoon do not come within the range of moderate drinking. That is not moderate drinking which adds fifteen or twenty beats to the pulse, or which flushes the face. Finally, all casual drinking is bad, presumably, and not mod-erate drinking. The system will not re-ceive food merely as a matter of conviviality at all sorts of odd hours. Still less will it receive with impunity drink in this way. Drinking which disturbs sleep, either by making it heavy or by driving it away, is not moderate. Moderate drinking is that which consists with a clean tongue, a good appetite, a slow pulse, a cool skin, a clear head, a steady hand, good walking-power, and light, refreshing sleep. It is associated with meals, and is entirely subordinated to BEST WORKS OF THE GREATEST AUTHORS. more convenient and less objectionable forms of food. That such drinking produces drunkenness, has yet to be proved, as it has yet to be proved to be essential to health."—From Popular Miscellany in Popular Science Monthly for June.
